

"Taking the best care of you and your pets is our priority"

Senior Wellness Package for our Canine Friends

Just like people, as dogs get older, they are more likely to develop conditions that may affect their life long term. It is very important to stay attune to these conditions and be able to identify them before they cause serious issues. To that extent, we offer a full senior workup – the best you can request for your canine pet. This package is specifically designed for the needs of senior (ages 6 years and older) pets in mind.

1. Comprehensive Health Examination

(including examination of oral cavity, palpation of the abdomen, and auscultation of the heart / lungs, weight, temperature)

2. Complete Senior Blood Testing

(including checking for kidneys, liver, thyroid, electrolytes, diabetes, pancreas, infection in the blood, anemia, platelet count, heartworm testing)

3. Urinary Testing

(including checking for specific gravity, ketones, crystals and urinary infections)

4. Full Body Radiographs

(xrays of the chest and abdomen, including hips – will check for organ enlargements, heart conditions, cancerous masses, arthritis)

5. Blood Pressure

(just like with people, we should not forget that cats also develop high blood pressure)

Total Discounted Cost for the Package \$475 (compared to regular \$725);

price is valid with this certificate only. Can not be combined with any other offers. Not valid for emergency, critical care or hospitalized patients. Some restrictions apply. Must be 18 years or older.

Offer expires December 31, 2017
